

Teaching Problem Solving Skills for Children with ASD

Thursday 14th June

Time: 1.00-4.00

Mulgrave Country Club

Crn Jells and Wellington Rds, Wheelers Hill

Enquire about the **School Refusal: Practical Strategies for Early Identification and Early Intervention** workshop.

Thursday 14th June, 9.00-12.00 at Mulgrave CC (lunch included if attending both workshops)

Workshop description

Problem Solving is a vital skill and one of the most talked about classroom skills of today. Students who use problem solving skills are strengthening important tools that will not only serve them in their immediate environment but will also contribute to the success of their lifelong learning. Using principles of Applied Behaviour Analysis, this workshop will demonstrate:

- *How problem solving can be defined.*
- *Ways of breaking down the skill of problem solving.*
- *Evidence informed techniques to ensure successful teaching.*
- *Effective strategies to support the application of problem solving skills to the classroom and playground environments.*

Attendees will be given the opportunity to individualise the strategies covered to their own classrooms and their own students in a highly supported setting.

This workshop will focus on Australian Professional Standards for Teachers 3.2 and 3.3

Johanna Taylor has worked in the fields of Education and Behaviour Analysis for many years. She has a strong commitment to assisting school staff in supporting a diverse range of learners with her highly sought after skill set. Johanna holds a Master of Education (Special Education, Early Intervention and Inclusion) and Post Graduate Certificate in Education Research Methods.

Target audience: Primary and secondary school teachers. School staff in wellbeing and student support roles.

Cost: \$105 + GST

Cost includes workshop manual, resources, sample data collection sheets, certificate of participation (for 3 hours of PD), morning tea and lunch.

Bookings can be made via email:
