

YARRA ROAD PS

Child Abuse Risk Management

Child Safe Standard 6

Yarra Road Primary School is committed to implementing a culture of child safety, inclusive of all school environments, in and outside of school hours and practices zero tolerance of child abuse.

STRATEGIES TO IDENTIFY AND REDUCE OR REMOVE THE RISK OF ABUSE

DESCRIPTION:

Yarra Road Primary School has adopted a risk management approach by identifying and considering child safety risk(s) based on a range of factors including the nature of activities undertaken with children, physical and online environments and the characteristics of children - including the cultural safety for Aboriginal children; children from culturally and/or linguistically diverse backgrounds and the safety of children with a disability.

It covers both 'everyday' risks at school and risks posed by specific activities such as excursions and overnight trips and camps. Where risks are identified, Yarra Road Primary School institutes measures to reduce or remove them. *Please refer to the school's [Excursion](#), [Incursion](#), [External Providers](#), [Anti-Bullying](#), [Anti-Cyber Bullying](#), [Supervision](#), [Camps and Duty of Care](#) policies.*

RATIONALE:

Yarra Road Primary School has an active approach to its duty of care in protecting children and a risk management approach and a commitment to continuous improvement. Additionally, implementation of a risk management approach is part of Yarra Road Primary School's recognition of its legal responsibilities to ensure the safety of children.

HOW YARRA ROAD PRIMARY SCHOOL IMPLEMENTS THIS STANDARD:

We implement this standard by:

- Ensuring clear and accessible processes for evaluating risks posed by situations and activities appropriate to Yarra Road Primary School, its size and resources, physical and online environments, and the characteristics of its children.
- Developing, recording and communicating clear processes for removing risks to children (for example, rules on online communications – included in the Internet and Anti-bullying and Anti-cyber bullying policies).
- Providing relevant staff and volunteers with training in identifying child abuse risks, for example blocked-off/out-of-sight spaces (especially rooms with doors that can be locked), overnight stays, and opportunities for physical contact, such as sports coaching and personal care.
- Engaging methods for continual improvement in how risks are managed by learning from past lessons, including policy review and staff training.
- A risk management approach driven through endorsement and ownership by management, including responsibility for risk identification and response in position descriptions.
- Ensuring supervision requirements for staff and volunteers who work with children.

- Instituting processes for periodic review of risk management approaches and/or processes and following any incidents.
- Recognising and adapting to the needs of particular children and communities, including Aboriginal children, culturally and/or linguistically diverse children and children with a disability. For example, acknowledgement that greater staff or volunteer to child ratios may be needed for some children with a disability.
- Recognising and addressing risks to Aboriginal children which might exist because of their experiences, for example if a child does not feel safe identifying as Aboriginal, or if there is an inadequate response to self-identification.
- Recognising and addressing risks to children with a culturally and/or linguistically diverse background, which might exist because of their experiences, for example increased communication with families may be necessary to build trust and understanding of organisational activities.
- Recognising and addressing risks for children with a disability, for example communication barriers when telling an adult they feel unsafe.
- Having a central reporting and advisory contact (Child Safety Officer) for staff to raise concerns and get advice about what to do if they need to report suspected abuse.
- Including statements about shared responsibility for management of risks in all position descriptions.
- Having a consistent risk management approach across the school.
- Including discussion about apparent risks or 'near misses' in staff/team meetings and areas for improvement.
- Rostering staff with appropriate experience and qualifications to manage high risk environments.

By successfully implementing this standard Yarra Road Primary School will be a school in which:

- Situational risks are considered and understood by all staff
- Steps are put in place to reduce risks where possible
- Risk management approaches are regularly reflected on and improved
- Specific risks to Aboriginal children are identified, assessed and mitigated
- Specific risks to children from a culturally and/or linguistically diverse background are identified, assessed and mitigated
- Specific risks to children with a disability are identified, assessed and mitigated

EVALUATION:

This policy will be reviewed as part of the school's three-year review cycle and following any significant incidents should they occur.
